**People's Emergency Briefing** film will be shown on Thursday June 11th in the Memorial Hall, 7.30pm. Based on last November's Westminster briefing to MPs, it brings together ten leading UK environmental scientists and experts with the latest evidence and why it matters for nature, food security, the economy, cost of living, health and the weather. It will be followed by a brief discussion session to gauge how people feel and what more as a community we could do to mitigate against the local impacts of our changing climate. See Charlbury.info Events page for tickets (£1) in advance and details of showings at other locations locally. The Oxford Diocesan Care for Creation team is encouraging us all to see this film.
